MID-LEVEL LEADER 360

CAUGHT IN THE MIDDLE. ACCOUNTABLE FOR BOTH ENDS.

A confidential 360-degree assessment for managers of managers

Mid-level leaders deliver results through other leaders. They are asked to hit today's targets while developing the people who will hit tomorrow's, often while translating decisions they did not make. The Mid-Level Leader 360 shows how they are experienced from above, beside and below, then their coach helps them find a clear place to start.

When to use it

Getting the most from your results

Mid-level leaders often hear different stories from above and below. Look for where manager, peer and direct report views differ, and treat comments as perspectives, not verdicts. Your coach will help you set priorities.
